ANTI-SALOON.

Republican Efforts to Abolish Saloons.

A CONVENTION AT CHICAGO.

The Republican Party Arrays Itself Solidly in Favor of Sumptuary Law.

[*Special to the Herald by the Associated Press.*]

CHICAGO, November 11.—The National Committee of anti-saloon Republicans was called to order by Hon. Albert Griffin, of Kansas. A statement of the work done by the Executive Committee since the National Conference. on September 16th, and an outline of the situation was made by Mr. Griffin. "From the east and the west," said Mr. Griffin, "most encouraging reports come. The anti-saloon address, written by General A. B. Nettleton, has been favorably received all over the country through the Associated Press and Chicago dailies, the Newspaper's Union, Kellogg's Lists, and the temperance and religious journals. It stands as the leading temperance document of the day. It was editorially said in one of our stalwart Republican dailies that it is the strongest political utterance on behalf of the temperance cause which has been made in the last twenty-five years. I was agreeably surprised at the rapidity with which the sentiment against saloons is strengthening in the East. While in Massachusetts last week I was informed by leading Republicans that the anti-saloon element within the party had undoubtedly prevented a Democratic victory. In New York the leading Republicans, political and journalistic factions are solidly with us."

Hon. J. G. B. Connor, of Indianapolis, reported a gratifying state of affairs in Indiana. He said the Republican party in that Sttae had put itself on an anti-saloon platform last August, and the entire State ticket and a majority of the Legislature had been elected.

Mr. Metcalf, of Ohio, reported the situation in that State as rather critical, and said that unless the Republican party was willing to exchange its liquor sympathizers for men of another stamp, he feared the result would prove disastrous.

Estabrook, of Nebraska, and Hon. P. H. Woodward, of Connecticut, were elected members of the National Committee from their respective States.

On motion of General Nettleton, it was voted to remove the headquarters of the Executive Committee from this city to New York.

Some changes were made in the Committee, and the membership is as follows: Albert Griffin, Chairman; F. O. Popenoe, Secretary; ex-Postmaster-General T. L. James, Treasurer; General Thomas W. Conway, Judge Noah Davis, Theodore Roosevelt, J. M. Bandy, of New York; Dr. H. K. Carroll, of Plainfield, N. J.; W. A. James, Highland Park, Ills.; Hon. W. W. Brown, Bradford, Pa.; Hon. H. B. Metcalf, Pawtucket, R. I.; Hon. P. W. Woodard, Hartford Conn.; E. H. Haskell, Boston; General Nettleton, Minneapolis, Minn.; Chas. S. Gleed, Topeka, Kas.

AN EXPLOSION.

Several Men, Women and Children Badly Injured.

PHILADELPHIA, November 11.—An explosion occurred in the cigar box manufactory of Henry H. Sheap & Co., numbers 1706 and 1708 Randolph street, this afternoon, which blew out the rear wall, badly injuring a number of young men, women and girls and imperiling the lives of over one hundred more. The manufactory is a three story brick structure. Just before the explosion the engineer started up steam and then started to the Randolph street front of the building. He states that he had been there but a few minutes when he was startled by a loud noise, which was followed by the upper portion of the rear wall falling out and the screams of the women in the upper story. A girl, Carrie Bruner, aged eighteen, is missing, and a dozen others more or less injured.

The fire was gotten under control after having destroyed the entire building. About two hours after the fire had been extinguished the body of Carrie Bruner, aged 30, an employé, was found buried under the steam pipes and heavy timbers. Her death was in all probability caused by the heavy timbers falling on her when the explosion occurred. The theory of the origin of the explosion is that after the engineer had banked the fire in the engine the back draft had blown the flames out so that they had communicated with the sawdust in the bin and the flames shooting upward through the large dust flue which was air tight, had caused the explosion.

A Strong Case.

ST. LOUIS, November 11.—The evidence in the express robbery case made public, goes to prove that messenger Frothingham was an accessory or at least a willing victim to the affair. The discrepancies in his statements to the detectives indicate that he knows more of the manner in which the robbery was planned and executed than he would like to have them know. An expert penman who was before the grand jury last Saturday stated that the three letters signed "Jim Cummings" were written by the same man and expresses his belief that that man was Frothingham and that he wrote them before the commission of the robbery. It now transpires that the messenger's trunk was shipped soon after the robbery and a number of sheets of paper were found covered with copies of the signature of W. J. Barrett, Manager of the Express Company. It is supposed that the messenger became able to forge his signature so that he might affix it to the order which the robber presented which allowed him to enter the car.

Mormon Converts.

PITTSBURGH, November 11.—New England, a thriving little village a few miles back of Pole valley, on the Monongahela river, was visited by two or three Mormon missionaries a few months ago, who began to preach their doctrine to the people. Some twenty of the citizens, including their families, have been converted to the Mormon faith, and are making preparations to depart for Utah. Seventeen of the converts will leave for Utah in a few days, while the remainder will go just as soon as they can dispose of their little real estate which many of them have secured from the savings of almost a life-time. The converts are largely composed of English coal miners, who have but little intercourse with the outside world.

Turf Congress.

CINCINNATI, November 11.—The American Turf Congress finished its work this evening, and most of the members left for their homes. The following is a dispatch of Secretary B. G. Bruce to the New York World: The Convention met at 10 o'clock to-day and after a session continuing throughout the day, passed upon the rules. Little if any changes were made in the body of the rules. Minor additions or verbal charges were made. The weights were raised on two-year-olds to 113 till May 1st, and 115 pounds after that for the remainder of the season. Charles Green of St. Louis, was elected President for the coming year, and B. G. Bruce Secretary. The congress adjourned to meet at Lexington on the second Wednesday in November, 1887.

Brewers Combine.

NEW YORK, November 11.—The brewers of Patterson and Newark have joined hands with those of New York and Long Island, forming a combination to maintain the price of beer and put a check on boycotting and labor unions. Each brewer is required to deposit $15,000 in cash as a guarantee of good faith. This sum is to be forfeited if the agrement is violated. It is estimated that the fund will reach very nearly $1,000,000.

Death of a Noted Man.

ALBUQUERQUE, N. M., November 11.—Col. Bell died suddenly last night in his room, in the First National Bank building. He was largely interested in the coal business at Gallup, and was a noted literatur of New York, and at one time had editorial management of the Frank Leslie publications. He was about 56 years of age. His family, consisting of a wife, son and daughter, are spending the season at Pasadena, Cal.

THE STRIKE.

Very Little Prospect of an Early Settlement.

CHICAGO, November 11.—The situation in the stock yards this morning shows improvement. All packers report their forces increasing, and among the applicants who worked to-day are several old men. Contrary to general expectations, the army of workmen engaged by Fowler & Co. in New York last Monday, arrived at the yards and reached their employers' establishment without molestation. Everything is quiet at present.

A BACK DOWN.

The Packers' Association held a prolonged meeting with closed doors last night and after much talking adopted a resolution which seemed to be a complete back down from their expressed determination to bar organized laborers from employment in the Chicago stock yards. The following is the resolution:

Resolved, That while we will not exclude from our employment members of such organizations, we will exercise the right to employ and discharge whom we please and conduct our business on the ten hour plan and according to our best interests.

A meeting of strikers is in session tonight at the yards, which is being attended by Messrs. Barry and Carleton.

Before entering the hall at 8 P. M. Barry and Carleton were seen and questioned concerning the report of the collapse of the strike. They denied emphatically that there was any truth whatever in the statement. Carleton, who arrived this morning, as a representative of Powderly, to investigate the situation, said that far from the strikers having surrendered, they were full of enthusiasm and confident of ultimate victory. So far as he has been able to ascertain to-day there was little or no probability of the strike ending until the men had won their point, namely: that the packers concede the technical recognition of the principle of eight hours work for eight hours pay, or at least allow the matter to be arbitrated. The statement that Powderly had wired Carleton to order the strike off was a lie on its face. Carleton had only arrived in Chicago this morning and it was absurd to suppose that he would be preemptorily commanded to end the strike without being given any time to fulfill the mission which brought him here. News concerning Powderly's alleged telegram had been received in Chicago over speculator's private wires and both Carleton and Barry declared without reserve they believed that the reports saying that the strike was off had been given out solely for stock jobbing purpose.

THE TELEPHONE CASE.

The American Bell Company Scores a Winning.

CINCINNATI, November 11.—The opinion of the United States Circuit Court in the case of the government against the American Bell Telephone Company was delivered this morning by Judge Sage. It was very voluminous and was in favor of the American Bell Telephone Company.

Taking up first the defendant's motion to quash the return, the Court granted the motion on the ground that the service according to the Marshal's return, had been made upon the local corporations in Ohio. designated in the return as agents and partners of the defendant. The Court found that local corporations were not such agents as are contemplated by the Ohio law defining the methods of obtaining service upon foreign corporations of Ohio As to the claim on the government that dealing in a patent made a company domestic in the entire territory of the United States, coexistent with the patent, the Court held that it could not be sustained. The grant to the patentee is a right to exclude others from making or selling his patent. His right to sell is only a common law right and is not a franchise from the government. The bill was dismissed for want of jurisdiction, and without prejudice to instituting suit elsewhere.

MISS CLEVELAND.

She Rushes Into Print and Uses Strong Language.

NEW YORK, November 11.—The following card is published:

To the Editor of the Evening Post:

Sir—Will you kindly permit me through your columns to reply to many who still inquire concerning my real present relation to a little Chicago magazine, that my connection with this paper was irrevocably ended more than a month ago; also, that reported interviews with the publisher of that paper have contained so little truth in what they have said of me to deserve only Tennysons stigma of "the worst of lies." These falsehoods would be as harmless as they are ridiculous except for the sad fact that they are widely circulated in newspapers which receive and scatter them to many readers among whom some feeling kindly towards me may sorrowfully believe them until they are undeceived.

ROSE ELIZABETH CLEVELAND.

A Shocking Trageday.

SALT LAKE CITY, November 11.—Particulars have been received here from Kanabutah of a shocking tragedy, the bodies of a man and woman having been found where they had been encamped on Buckskin mountains. The inquest showed that they had been killed by the blow of an ax while asleep. The bodies had then been thrown into a shallow grave, which was filled with earth and a fire was built upon it, charring the flesh of the man. The bodies were found by passers-by through the exposure of the man's foot by coyotes digging into the grave.

Accident to a Los Angeles Man.

NEW YORK, November 11—Joseph O'Leary of Los Angeles, Cal., walked across Park Row yesterday from the corner of Chamber street, passing under the pumping station of the elevated railroad just as some of the workingmen were hoisting up a piece of T. iron weighing thirty five pounds, it slipped through the noose and fell twelve or fifteen feet, striking O'Leary on the head. He was taken to the Chambers street Hospital, suffering from the shock and concussion of the brain. He was bleeding at the mouth, and showed other symptoms of having a fracture of the base of the skull. O'Leary is 29 years old and single.

Strikers Win.

JERSEY CITY, November 11.—The strikers at the hog abbattoir on Backensack Meadows all went back to work this morning at an increase of wages. The company refused to dismiss two foremen, as the strikers demanded, and also refused to treat with a committee from the Knights of Labor who waited upon them. After a conference with a committee of the strikers the bosses succeeded in making an amicable settlement to the satisfaction of all concerned. Both parties made concessions.

A Delicate Operation.

NEW HAVEN, CONN., November 11.—Drs. Bacon, Iver and Sanford yesterday performed the delicate and difficult operation of delivering a child by the Cæsarean method. The mother is Mrs. Blaksley, of this city. The child weighed fifteen pounds. Mrs. Blaksley was very low this morning, but Dr. Bacon gives some assurance that she will recover.

Bad Wine.

NEW YORK, November 10.—The Board of Health has condemned 5230 gallons of wine in the city, which had been made under the following formula: Dried fruits, such as currants, raisins and peaches of low grade, macerated with water, mixed with a percentage of sugar and fermented. Fermentation is checked by salicylic acid. It is then classified, flavored and colored to resemble port, claret or any other kind of wine desired.

Cutting's Claim.

WASHINGTON, November 11.—The claim of Editor Cutting against the Mexican government for $50,000 damages on account of false imprisonment and personal indignities suffered by him, has been for some time on file in the State Department, but it has not yet been examined by the Secretary, and there has been, therefore, no decision with regard to the disposition to be made of it.

The Boodle Aldermen.

NEW YORK, November 10.—In obedience to summonses served on them yesterday "Jake" Sharp, Jim Richmond, James W. Foshoy and Thos. B. Ker appeared in the Court of General Sessions to-day to plead to the twenty-one counts against them for bribery in the Broadway Railway matter. All pleaded "not guilty," and the cases went over until Monday.

THE COAST.

The Boy Murderer of San Francisco.

AN INDICTMENT AGAINST HIM.

Cutting Organizing His Company to Invade Mexico—New Town of Templeton.

[*Special to the Herald by the Associated Press.*]

SAN FRANCISCO, November 11.—The Coroner's jury to-day rendered a verdict in the case of Mamie Kelly, who was shot by Aleck Goldenson yesterday. The verdict is as follows: "We find that deceased, Mary Elizabeth Kelly, a native of San Francisco, aged fourteen years, came to her death on Wednesday afternoon, November 10th, at the corner of Polk street and Ash avenue, from a bullet wound of the brain inflicted by one Alexander Goldenson. We further believe that said act was done with deliberation and malice aforethought and without cause and we do charge said Alexander Goldenson with cold blooded murder."

GOLDENSON INDICTED.

The case of Alexander Goldenson, charged with the murder of Mamie Kelly, was placed before the Grand Jury to-day, and in a short time an indictment was found against the accused, charging him with murder. Preparations are in progress for holding an indignation mass meeting at an early day to express the feeling of the community over the action in the cases of many murderers now confined in jail in this city, and particularly to express the sentiments over this last atrocious case.

A BAD BOY.

In regard to the character of Alex Goldenson, who shot and killed Mamie Kelly, a school girl yesterday, the police court records show that he has been before the courts twice for battery, once each for misdemeanor, drunk and vagrancy, also for violating the 8 o'clock order. His preliminary examination for the murder has been set for the 18th instant.

HE SHOULD HANG.

The murder of the young schoolgirl, Mamie Kelly, by Aleck Goldenson yesterday afternoon is attracting more attention than murders usually do. The crime is looked upon as one that was prompted by the lowest and most selfish of passions. The sad fate of the young girl is lost sight of in the fear that so base a creature as this young man is may escape hanging.

CUTTING'S RECRUITS.

The Men Who Will Follow Him Into Mexico.

ALBUQUERQUE, November 11.—Capt. Edward Friend, of the El Paso Rifles, arrived here night before last and opened a roll for recruits to join Cutting's fillibustering expedition into Mexico. It is understood that 213 names have been placed on the list in this city and more are promised. It is expected that the expedition will be thoroughly organized within a mouth, and the insurgents will rendezvous at El Paso, from which point they will invade the Mexican Republic. The Federal officials in this territory are closely watching their movements and will use every endeavor to prevent the invasion of a friendly neighboring Republic. The men being enlisted for the expedition are well known characters, desperate in the extreme, and capable of causing serious international trouble.

A New Town.

SAN LUIS OBISPO, November 11.—It has been determined to build a bridge across the Salinas at once at Templeton. The railroad has passed the springs and made the terminus at Templeton. The Templeton Times, under the management of W. D. Haley, of the San Jose Mercury, will be issued at Templeton, the initial number appearing the last of this month.

A Misused Chinese Girl.

SAN FRANCISCO, November 11.—Among the passengers who recently arrived on the steamship City of Sydney was Luey Ah Gin, a Chinese woman who was not permitted to land by the customs officers. A writ of habeas corpus was sued out in the United States District Court in her behalf by a waiter employed in the Palace Hotel. To-day, in the United States District Attorney's office she stated that she was kidnapped at her home in China, taken to Hong Kong, where she was beaten and her photographs taken, and was given a red certificate issued by the customs house in this city. She was told a story to repeat on her arrival here that she had lived in a certain small town in this State, and that she would be killed if she did not repeat the story told to her. She was taken before Judge Hoffman who remanded her to be returned on the City of Sydney to China.

A Mill Burned.

DAYTON, Nev., November 11.—Yesterday afternoon the whistle at J. M. Douglas' mill sounded the alarm of fire and dense volumes of smoke were seen issuing from the acid chambers a short distance from the mill. In a few minutes they were enveloped in flames. A fire engine was promptly on hand but could do nothing to stay the progress of the flames, and in thirty minutes the large building was burned to the ground. The building contained about one hundred tons of sulphur, fifteen of which were destroyed. The loss is estimated at $20,000, with about $8,000 insurance. The fire, it is supposed, was originated by boys shooting into the building with small rifles.

A Suicide.

PORTLAND, Or., November 11.—Job Connor, an old pioneer and wealthy farmer of Polk county, committed suicide near The Dalles this morning by cutting his throat. He was a member of the United States Grand Jury, which convened here recently, and while the jury was in session he wandered away from the city and was found in Washington county after two days and nights of wandering. No cause was assigned for his insanity.

SOME REPUBLICANS ELECTED.

[*Special to the Herald by the Associated Press.*]

SAN FRANCISCO, November 11.—2 P. M.—Official returns from all counties in the State except Alpine, Amador, Colusa, Del Norte, Fresno, Humboldt, Inyo, Mendocino Merced, Modoc, Mono, Placer, San Diego, Santa Barbara, Sierra, Siskiyou and Trinity, with a semi-official count in San Francisco give Hendricks, Democrat, for Secretary of State, 3882 plurality. Estimating the vote in the unheard from counties on the vote for Governor, Hendricks' plurality in the State will be 4000. With the same counties to hear from, Dunn, Democrat, for Controller, leads Denny by 338. Herold, Democrat, for Treasurer, leads Neff by 179. Hart, Republican, for Attorney General, leads Johnson by 1456. Reichart, Republican, for Surveyor General, leads Miller by 5458. Hoitt, Republican, for Superintendent of Public Instruction, leads Moulder by 443. Orr, Republican, for Clerk of the Supreme Court, leads Spencer by 191. For Lieutenant Governor, Waterman, Republican, leads Tarpey 3544

BARTLETT'S PLURALITY.

At 2:15 P. M. to-day, with official returns still lacking from Alpine, Contra Costa, Del Norte, Humboldt, Los Angeles, San Diego, Trinity and San Francisco, but taking the semi-official count of those counties as about correct, the plurality for Bartlett for Governor is 769.

The following official counts were received to-day to the tabulated list already sent: Contra Costa, Swift 1251, Bartlett 1147; Los Angeles, Swift 5489, Bartlett 5064. When the official returns are all in Waterman's, Republican, majority for Lieutenant Governor, will be about 2900; Hendricks, Democrat, for Secretary of State will, on estimates made to night, have a plurality in the State of 5200.

FIRST DISTRICT.

SAN FRANCISCO, November 11.—In the First Congressional district, Thompson's (Dem.) election is now assured, with only Del Norte and Humboldt counties to hear from. The figures at noon to-day stand: Garter (Rep.) 11,764, Thompson (Dem.) 13,140. In Del Norte county Thompson will have a majority of 90, and private advices this morning from Eureka are that Garter's majority in that county will not exceed 375. Accepting this latter as about correct, the figures would stand: Garter 12,139, Thompson 13,229, which would give Thompson a majority of 1091.

THE SIXTH DISTRICT.

SAN FRANCISCO, November 11.—A slight correction in the following official figures from Fresno county and the official figures from Los Angeles county make the vote in the Sixth Congressional District stand as follows:

County.	Vandever.	Lynch.
Fresno	1391	1825
Inyo	349	294
Kern	533	827
Los Angeles	5597	5314

San Bernardino	1507	1402
San Luis Obispo	1275	1215
Santa Barbara	1192	1137
Tulare	1639	1985
Ventura	819	572
Totals	16,736	17,016

Alpine and San Diego counties are the only ones to hear from officially.

SAN DIEGO.

SAN DIEGO, November 11.—No additional returns on Congressman in the Sixth district have been received. The vote stands: Vandever 1329, Lynch 1020: Vandever's plurality 309. One of the precincts unreported is known to have given Vandever a plurality of 20, making, as far as known, a plurality for him of 329. The precincts not reported do not poll more than 175 votes and ought to give a small Republican plurality. In any event, it is not believed Vandever's plurality can be reduced below 300, and is more likely to exceed these figures.

A Correction.

SAN FRANCISCO, November 11.—A correction in the official count from Fresno county, as reported to-night, is as follows: Swift 1,101, Bartlett 1,740, Vandever 1,391, Lynch 1,835.

The Los Angeles Athletic Club.

To-night, at Armory Hall, the Los Angeles Athletic Club give an entertainment to consist of exercises in the "manly art of self-defense," by the amateur talent of the club, acrobatic feats, such as pyramids, groupings, statuary, etc., etc. A fine band is engaged for the occasion, and after the exhibitions by the members of the club, dancing will speed the merry hours away. Refreshments will be served during the evening, and for this preparations of a decidedly elaborate order have been made.

These socials by the young gentlemen of Los Angeles who comprise the club, are always very interesting and enjoyable affairs, and this will prove no exception to the rule. The youth and beauty of the city will be present, and the night will be a red letter one in the memory of many young people.

Tickets may be had at Messrs. Stoll & Thayer's, in the Nadeau Block, or those holding cards of invitation may pay at the door.

On all street car lines in the city, special cars will leave at 12 o'clock to give those present an opportunity to reach their homes.

Amusements.

Hackneyed though it be, "Uncle Tom's Cabin" always seems to have the power to draw crowded houses, and those who have seen the play a number of times, are not the least eager to see it again when an opportunity offers. This was exemplified again last night at the Grand Opera House which was overcrowded by people anxious to see that dramatic picture of slave life, due to the genius of Mrs. Beecher Stowe. The company is a large one and an able one. Owing to the familiarity of every reading person with the story of "Uncle Tom's Cabin" it is not necessary to enter into a synopsis of the play. The following is the cast:

Marks, the lawyer	Mr. L. R. Stockwell
Phineas Fletcher	Mr. Frank Mordaunt
George Harris	Mr. Arthur Branscomb
Simon Legree	Mr. George Osbourne
Tom Loker	Mr. Emile Collins
Sam Haley	Mr. George Trader
St. Clare	Mr. Bertram Arthur
Uncle Tom	Mr. George Turner
George Shelby	Mr. Fred Robius
Auctioneer	Mr. Mort. Frank
Sambo	Mr. Wm. Boswell
Quimbo	Mr. Chas. Bentley
Adolph	Mr. Sam Watson
Barkeeper	Mr. Dick Turner
Eliza Harris	Miss Elenor Barry
Aunt Ophelia	Miss Fannie Bowman
Mrs. St. Clare	Miss Agnes Burrows
Eva	Little Daisy Chester
Chloe	Miss Chesley Karr
Emeline	Miss Parry Stevney
Topsy	Miss Kate Chester

Slave Hunters, Plantation Hands, etc.

Mr. Stockwell, as Marks, the lawyer, was very funny; Miss Kate Chester's Topsy was good, as was also the Phineas Fletcher of Mr. Mordaunt. All the other parts were satisfactorily rendered and the audience seemed perfectly well pleased with the play, those of the higher regions especially being enthusiastic.

A praiseworthy innovation of Messrs. McLain & Lehman was inaugurated last night. It is an orchestra that knows how to play. The new band is under the leadership of Mr. J. H. Brenner. Its selections last night were well chosen and for once there was something heard outside of Schleppegrell.

The play will be repeated to-night.

Accidentally Run Over.

Albert Cornelius, a little boy about 6½ years old, was running across Spring street, between Second and Third, at 5 o'clock yesterday evening, after returning from the Spring street public school, when he was run over by a double-team carriage, in which there were two ladies. Both wheels on one side of the carriage passed over the little boy, though fortunately they broke no bones. The little fellow was very much bruised, however, and lies in a high fever at his parents' home. His life is not in danger.

WALDEMAR REFUSES A THRONE

The Bulgarian Difficulty Still Under Consideration by the European Powers.

[*Special to the Herald by the Associated Press.*]

TIRNOVA, November 11.—Waldemar has sent a telegram to the Regents expressing his grateful sense of the honor conferred upon him by the Sobranje in electing him Prince of Bulgaria. He states, however, that the decision as to his acceptance rests with his father, the King of Denmark, and adds that other duties may prevent his assuming the rulership of Bulgaria. The Prince's reply is considered to presage his refusal of the throne.

THE CZAR'S CHOICE.

LONDON, November 10.—Reliable advices from Vienna say that the Czar declines to accept the election of Prince Waldemar, but will not oppose Prince Nicholas, of Montenegro.

ANOTHER CANDIDATE FOR THE THRONE.

BERLIN, November 11.—In political circles here it is considered certain that Prince Waldemar will decline the post of Bulgarian ruler. Prince Bismarck is inclined to favor Prince Nicholas of Mingrelia as a candidate for the throne.

TO CARRY THE NEWS.

TIRNOVA, November 10.—The Bulgarian deputation appointed to convey to Prince Waldemar the official notice of his election by the Sobranje to succeed Prince Alexander, have departed for Cannes, France, where the Prince is sojourning.

A ROYAL BROTHER OBJECTS.

COPENHAGEN, November 11.—The Gazette says that King George of Greece will leave Athens if his brother Prince Waldemar accepts the Bulgarian throne.

Bulgarian Matters.

PESTH, November 11.—After the election of Waldemar yesterday the Austrian and German embassadors at St. Petersburg were instructed by their governments to enquire of the Russian Ambassador the name of the candidate he favored as Alexander's successor. If Russia refuses to accept the election of Waldemar it will be conceded that she entertains designs against Bulgarian independence, and in this event England, Germany, Austria and Italy will arrive at an understanding similar to the one that existed among them at the period of the Berlin conference.

The Autumn Cup.

LONDON, November 11.—The race for the Liverpool autumn cup and 1000 sovereigns was won by Melton, Kilcree second, Candlemas third. There were eighteen starters.

A Fleet to be Reinforced.

LONDON, November 11.—It is asserted that three Italian ironclads have been ordered to join the British fleet at Malta.

A Prospective Treaty.

OTTAWA, Can., November 11.—The question of a treaty between Canada and the Sandwich Islands is under consideration by the Dominion Government. A commissioner has been appointed to proceed to the West Indies and report on the best methods of developing trade relations.

A. G. BAYNTON.

The Last Hours of a Man Sentenced to Death.

To-day at 2 o'clock Albert George Baynton will pay the penalty of the double crime which so shocked the community on the night of 24th of September. Notwithstanding the fact that his course is so very nearly run, Baynton remains calm throughout. He does not seem to realize at all that in a few short hours his life will be suddenly ended. The arrangements made by Sheriff Gard are very complete and with the experience gained at the execution of Silvas and Martinez there is no chance of any hitch. The idea that Baynton was partially insane at the time of the commission of the crime has often been broached by people who were not familiar with him, but his lucidity or right-mindedness has never been questioned by those who have had opportunities of judging of it, since his arrest Notwithstanding all that, he showed a peculiar disposition to be absent minded, to say the least, yesterday. An old Welsh lady and child came all the way from San Francisco to see him and when admitted to his cell she became very effusive, throwing her arms around his neck and wailing. The prisoner had been talking with another lady who was there for the purpose of reconciling him to his fate by speaking about religious topics, and the newcomer seemed to disturb him. She was talking in Welsh to him at a great rate when Baynton suddenly told Deputy Sheriff Darcy, very calmly: "This woman is annoying me; please put her out." Darcy complied with the prisoner's wish and returned. Suddenly Baynton said: "Wasn't there a lady here who wanted to see me?" Darcy said: "Yes, but I put her out at your own request;" to which he retorted that he would have liked to speak to her after he got through with the other one. At 1 o'clock this morning Baynton was sleeping soundly.

He desires to state to the dear people that he is a candidate for the office of Road Overseer in San Gabriel Road District. He says if he is appointed to that office he will guarantee that there shall be some good roads made.

Mr. Shorb's guarantee is good and all the people who travel our county roads will rejoice to see him tackle the business of road-making.

FINANCE and TRADE.

Government Bonds and Railway Shares.

NEW YORK, November 11.—Government bonds dull and steady.

To-day extraordinary interest was developed in low-priced Southern and Southwestern. Shorts suffered no diminution, and they were again active and strong, monopolizing most of the interest taken in speculation. The market was active and feverish in the early part of the day, over one-third of the entire day's business being transacted in the first hour. Prices were weak throughout almost the entire day. The opening was strong, first prices showing advances over final figures last evening of from ⅛ to ⅝ per cent. Generally trading was very active, but prices were feverish and generally weak and towards noon the market became dull, fluctuations being confined within a very narrow range and transactions featureless. There was a reaction this afternoon and slight activity, but the last two hours saw the decline resumed and the market became weaker as well as more active as the close of business approached, and final figures are generally the lowest of the day.

Stonewall Jackson's Ways.

Talking with him once about some subject of casuistry or prevarication, I put the question direct to him, "Did you never tell a lie?" Pausing, as was his invariable manner before giving a categorical answer, as if for an introspective review of his consciousness, he said:

"Yes, but only once, so far as I can remember. I was leading my men through a rank chaparral, infested by Mexican guerrillas. The balls were flying incessantly, and the broad leaves of the tropical plants were being riddled through and through. They became panic-stricken, and, notwithstanding my repeated order for advance, they hung back. Stepping some distance in front of them, into a narrow pass, where the bullets were whizzing round my head, and the foliage was being cut to ribbons, I called out:

"Follow me, men! Don't you see there is no danger?"

He never posted a letter without calculating whether it would have to travel on Sunday to reach its destination and if so, he would not mail it till Monday morning. Still further did he carry his Puritanical observance. Unnumbered times have I known him to receive important letters so late on Saturday night that he would not break his fixed resolution never to use his eyes, which were very delicate, by artificial light; he would carry the letters in his pocket till Monday morning, then rise with the sun to read them.

In the winter of '61-'62, while Jackson's forces were at Winchester, he sent a brigade to destroy the canal leading to Washington. The expedition proved a failure, and he attributed it, in some measure, to the fact that Sunday had been heedlessly trespassed upon. So when a second expedition was planned he determined that there should be no Sabbath-breaking connected with it that he could prevent. The advance was to be made early on Monday morning. On Saturday he ordered my husband (Colonel Preston, at that time on his staff), to see that the necessary powder was in readiness. The quartermaster could not find a sufficient quantity in Winchester on Saturday, but during Sunday it was procured. On Sunday evening the fact in some way got to Jackson's ears. At a very early hour on Monday he dispatched an officer to Shepherdstown for other powder, which was brought. Then summoning Colonel Preston, he said very decisively:

"Colonel, I desire that you will see that the powder which is used for this expedition is not the powder that was procured on Sunday."

Cure for Piles.

Piles are frequently preceded by a sense of weight in the back, loins and lower part of the abdomen, causing the patient to suppose he has some affection of the kidneys or neighboring organs. At times symptoms of indigestion are present, flatulency, uneasiness of the stomach, etc. A moisture like perspiration, producing a very disagreeable itching, after getting warm, is a common attendant. Blind, bleeding and itching piles yield at once to the application of Dr. Bosanko's Pile Remedy, which acts directly on the parts affected, absorbing the Tumors, allaying the intense itching, and effecting a permanent cure. Price 50 cents. Address the Dr. Bosanko Medicine Company, Piqua, O. Sold by C. F. Heinzeman.

TESTIMONIALS.

LOS ANGELES, Cal, May 28, 1886.

This is to certify that I came to Dr. Dawson on the third day of this month, being afflicted with Indigestion, Headache and General Debility. To-day I can eat a good square meal; headache all gone, and feel strong in body, and do say that Dr. Dawson's treatment is a success, for I feel ten years younger from the effect of the treatment.

JAMES JANES.

TO WHOM IT MAY CONCERN:—This is to say that I came to Dr. Dawson experiencing all the distressing effects of a debilitated nervous system, and since receiving the Doctor's treatment I can say that I feel like another man. The Doctor treats by Electro-Magnetism, or by a new system of Massage, which sends the current at once to the afflicted part, and the result is truly miraculous. The Doctor is a gentleman and deserves your patronage. W. J. DEEMS.

DR. DAWSON: *Dear Sir:*—I feel so grateful to you for curing my cough. I am quite free from pain which I had in my chest, shoulders and back, and am now gaining in flesh very fast. I had two brothers and one sister to die with consumption, and was sure that I was taken with the dreaded disease; but, thanks to your successful treatment, I feel a new woman.

MRS. E. FATTERSON.

LOS ANGELES, Cal., April 1, 1886.

D. W. DAWSON: *Dear Sir:*—I am happy to inform you that I am entirely relieved of rheumatism, thanks to your valuable Magnetic treatment I have been previously troubled with the dreaded disease; have been laid up for a month at a time; by the aid of crutches I managed to get to your office, and after three treatments I feel entirely relieved, for which I am thankful to you and your wonderful treatment.

The Workingman in Politics.

One fundamental law of statesmanship, as held in popular governments, is that all classes of the people should find representation in the law-making department of such government. In politics, as in every other element of life, it is much easier for the rich and powerful to secure the full measure of their rights than for the poor and weak. By reason of the peculiar methods followed by the Republican party during their twenty-five years of power, it has come to pass in this Republic that the upper house in the legislative department of the National government can be reached by representatives of only one class of the citizens. To be a Senator, one must first be a millionaire. Should that party have held power twenty-five years longer, or should they regain control soon again, the same result may be looked for in the lower house. In the simpler days of the Republic, and under the influence of the Democratic party, the rich cut very little figure in the politics of the Nation, Political office, the rich man found. like the Kingdom of Heaven to him, a place harder to reach than it would be for the camel to pass through the needle's eye. In those

"Brave days of old"

There was no such thing known as popular discontent, as Labor Unions, workingmen's parties, bread riots, and all the hydra-headed labor evils of the present day. Class distinctions were unknown in politics. Given a period of genuine Democracy, of the Jefferson-Jacksonian type, and the Nation may be brought back to some such line of political action again.

In doing this the workingman has a very important part to play. That is a fact very generally recognized among the laboring classes. All then, that seems necessary for the toiler to learn, is how to proceed in this business; and this is something he has yet to learn. He may be said, at the moment, to be ignorant of the very alphabet of this philosophy. The extreme protective tariff, falsely so called, is one of the many *ignes fatui* of the Republican politician which he has allowed to blind him. The tariff policy of the party rightly named is a discriminating one. It protects capital as the flaming sound did Paradise. It protects labor as the hawk protects the dove. For the poor man, for the man who depends on labor, a careful tariff policy which makes protection more an incidental than an essential element, would be much better. There are interests which should be protected. Such protection would greatly benefit the laborer. The interests of the millonaire can protect itself. The interests of the millions should be protected by law. When this law is forgotten there is danger that violence will reverse the matter, and then the millionaire goes to the wall, unless the law protects him, and the toiler, strong in his poverty, can take care of himself.

The one way for the workingman to fail is the one he is now pursuing. Led by Henry George, in New York, he came very near putting the party in power out of whose methods have sprung all the legal inequalities which bear so heavily on the interests of labor. Under the leadership of a felon, the labor element in California came within a hair's breath, of electing a man in this State to the governorship, who was notoriously put in nomination by the millionaire interests of California. This is the rock on which the labor class is too likely to split. That labor might hope to benefit by the election of Henry George is excusable to some extent. That any such hope could spring from the election of such as the felonious Coroner, is a puzzle never to be solved.

What labor wants to secure is a genuine representation in the Legislative departments of the National and State governments. Genuine representation is to get real workingmen, of sense and intelligence and integrity into State Legislatures, and into Congress. This the workingman is notoriously not doing. His effort in that direction so far has been in the way of blindly following some demagogue who is a professional man, or who is a common loafer, both notoriously not workingmen at all, and not in sympathy with workingmen, or any man outside themselves.

When the real toilers comprehend these facts, and become earnest enough to act on such knowledge there will be a larger and a brighter hope for their interests. What they want to do is to join in a proper demand on the great parties, that they be properly represented on the tickets of those parties. Obtaining such representation, they must learn to give hearty support to the party and ticket yielding to their demands.

That the toilers will ever get anything from the Republicans is not among the things that are accounted possible. The true friend of the popular interests is the Democratic party—it has been so, it is so now, and it will be so. If the true labor element of the country will consult their best interests, they will give side-shows under the leadership of charlatans, felons, "bummers" and "tramps" a wide berth. They will give all such devices of all sorts the go-by. It must be comprehended that these are devices of the enemy. They are Republican in design, in organization and support. These political humbugs do not traverse the length and breadth of California making speeches and spending money "for their health." There is money in the side-show. It is Republican money spent to induce Democrats to give half a vote to their political opponents.

With a few real workingmen of practical views, and hard common sense in Congress, and in the State Legislature, there will be some hope that this important element of the people will be able to get their interests guarded, and there is no other way for them to reach that desired goal.

Change the Troglodyte Laws.

If further reason were needed to prove the necessity of changing the election laws now in force in this State, so as to relieve a long-suffering people from the inconvenience of the Troglodyte methods of procedure followed by us, it might be discovered in the condition in the Boards of Election as they came out of the three days' seige. In this city, as a general rule, the Boards were very poorly constituted, as they came to their work at best in the fresh strength of the first morning. Now in some cases the Boards were made up of veterans who had seen their best days; in others they were partly composed of youth, with more in the gristle than in the bone. Several have been heard to remark that the tally lists had more mistakes, corrections and scratches on their faces than ever seen before.

Going into the counting of the votes jaded by a long day's work in receiving them, and being kept at the task for nearly two days and nights, as they were in some cases, it is no wonder that by the end of the time, these men were utterly demoralized. This was true of the best of them.

As the weary citizen found it impossible longer to hold out at the task of reading or recording, he was only too glad to relinquish his place; and in some cases, no doubt, he did so without too much care as to what his successor was.

All these reflections on our Cave-Dwellers' system are called up by the closeness of the vote. The facts establish what was already established, that the laws ought to be changed at once, and that the precincts should all be remodeled so that not more than 250 votes are cast in any one district.

Sunny Slope Sold.

The transfers of real estate in the HERALD to-day reveal the fact that Sunny Slope is sold, and the consideration in £ s. d. shows that the purchasers are English. The price is over a round million of dollars. This is the largest sale of real estate ever recorded in the county. This is as it should be, for no other piece of property has been made to play so important a part in the development of Los Angeles as has Sunny Slope. Mr. Rose has been one of its earliest pioneers, and his work has been on a gigantic scale, and as successful as it has been great.

The purchase of such a place by London capital, no doubt, is the beginning of an era of greater exploits on the superb piece of land. The possibilities of the great ranch are beyond the grasp even of imagination. One result will be, no doubt, the introduction of Sunny Slope wines and brandies into the markets of England, and these will form the sharp end of the wedge that is to let in all our wines and brandies to compete with the products of Europe on the tables of England.

The possessor of real property in Southern California can most safely

"Sleep o' nights."

He has the best property under the sun, area for area. The sale of Sunny Slope is the harbinger of more to come.

The Autumn Days.

California is now on the borderland of the season between the dry half of the year and the period of her annual rains. The fields are for the most part bare of all sorts of crops, and the farmer is taking a breathing spell preparatory to his seed time for the next harvest. The air is full of signs of the change, and of the rainy half of the year. The farmer is fully awake to this state of affairs and while taking a good breath he is far from idle. At night many fires are seen all around the horizon These are where brush and rubbish are being destroyed, so as to clear the ground. The agricultural implement dealers find their harvest-time now. The roads are lined with the new wagons and plows going out to take part in the campaign. Great activity is observable and all signs point to a prosperous year before us.

The Fifth Congressional District.

Charges are made that Sullivan has been "counted out" in the Fifth Congressional district. The specific allegation is that the fraud was committed in Santa Clara county. At this distance there is little means of judging if this is true or not. The district, it is said, will be contested. Such procedure is not unknown in close elections. As Poo Bah says: "I have known it done." If Dame Rumor is to be credited, Santa Clara is not the only county in California where tricks have been played. The Fifth Congressional district is not the only place where such a contest may have to be instituted. Close majorities in a county controlled by the party getting such a poll are always worth looking into.

The Sixth Congressional District.

The telegraph at length seems to bring something like definite information regarding the vote for Congressman in this district. Should the figures all prove correct the vote will be one of the closest ever cast in this close district. Allowing all claimed by the opposition in the two unheard-from counties and their majority is exceedingly slim. Should private dispatches heretofore published in the HERALD prove more nearly correct, the matter will be reduced to a question of mere units. Only the count in San Diego can establish the matter. There may be a sequel to the story.

OFFICIAL RETURNS.

Names of the Successful Candidates.

The HERALD to-day republishes its table containing the votes of all the leading candidates for State, Congressional and county offices as revised by the count of the Board of Supervisors. It does not vary essentially from the former table.

The table of returns of the 38th and 39th Senatorial districts, and of the 76th, 77th and 78th Assembly districts, and of the 1st and 3d Supervisorial districts, have been already published.

A full list of the county officers elected, including Supervisors, the Justices of the Peace, Constables, Water Commissioners and Water Overseers in all parts of the county. The table and list will be found valuable and should be preserved for reference.

A curious feature of the election returns is the fact that about 5000 voters stayed at home. Out of over 17,000 voters registered in the county only a little over 11,700 cast their ballots at the late election.

Avoid the harsh, irritating, griping compounds so often sold as purging medicines, and correct the irregularities of the bowels by the use of Ayers Cathartic Pills, which are mild and gentle, yet thorough and searching, in their action.

Admitted to Bail.

Judge Brunson yesterday heard the writ of habeas corpus in the case of Miguel Pryor, who was held for murder on the 16th of October, at San Juan Capistrano, on a Coroner's warrant, for murdering Francisco Olivares. Both parties were drinking at the saloon of Gavino Real a few days before that date, and Pryor who was excited and displeased at some act of the saloon keeper, became angry at the friendly interference of Olivares and stabbed him in the back with a dagger. Erysipelas set in and Olivares died on the 15th of last month. The application of the defendant was to be admitted to bail pending his examination. The court granted the prayer and admitted the defendant to bail in $10,000, which was given.

The only cough medicine that does not nauseate is Red Star Cough Cure.

Los Angeles as a Trade Center.

Everything shows the rapidly improved position which Los Angeles occupies in the commercial world. It is now the center for the raisin, orange, lemon and lime market, the honey market, the wine, brandy, hay, and petroleum market of the Pacific coast, but is becoming a market for furniture and upholstery for interior.

Only yesterday an order was received by Col. Violet, of Violet's excursion bureau, for mattresses and general furnishing of excursion cars to be sent to Omaha. The best street cars are made here and soon Los Angeles will have the best of everything.

A Pretty Woman's Secret.

Fear of discovery, when she resorts to false hair and dyes, is a source of constant anxiety to her. The very persons from whom she most desires to hide the waning of her charms are the ones most likely to make the discovery. But there is no reason why she should not regain and retain all the beauty of hair that was her pride in youth. Let her use AYER'S HAIR VIGOR, and, not only will her hair cease to fall out, but a new growth will appear where the scalp has been denuded; and locks that are turning gray, or have actually grown white, will return to their pristine freshness and brilliance of color. AYER'S HAIR VIGOR cures

Hereditary Baldness.

GEORGE MAYER, *Flatonia, Texas*, was bald at 23 years of age, as his ancestors had been for several generations. One bottle of HAIR VIGOR started a growth of soft, downy hair all over his scalp, which soon became thick, long, and vigorous.

Ayer's Hair Vigor

is *not a dye*, but, by healthful stimulation of the roots and color glands, speedily restores to its original color hair that is

Turning Gray.

MRS. CATHERINE DEAMER, *Point of Rocks, Md.*, had her hair suddenly blanched by fright, during the late civil war. AYER'S HAIR VIGOR restored it to its natural color, and made it softer, glossier, and more abundant than it had been before.

Scalp Diseases

Which cause dryness, brittleness, and falling of the hair, dandruff, itching, and annoying sores, are all quickly cured by AYER'S HAIR VIGOR. It cured HERBERT BOYD, *Minneapolis, Minn.*, of intolerable **Itching of the Scalp;** J. N. CARTER, JR., *Occoquan, Va.*, of **Scald Head;** MRS. D. V. S. LOVELACE, *Lovelaceville, Ky.*, of **Tetter Sores;** MISS BESSIE H. BEDLOE, *Burlington, Vt.*, of **Scalp Disease and Dandruff.** Torpidity of the roots of the hair, which, if neglected, may result in incurable baldness, is readily cured by AYER'S HAIR VIGOR. As

A Toilet Luxury

AYER'S HAIR VIGOR has no equal. It is colorless, cleanly, delightfully perfumed, and has the effect of making the hair soft, pliant, and glossy.

ON ASTHMA.

It is a common error to suppose every disease which is attended by oppressed breathing to be Asthma or Phthisic. We have shortness of breath in Consumption, Bronchitis and Pneumonia, just as we do in Asthma, only that in these diseases it is always present, whereas in Asthma it occurs in paroxysms.

Asthma is a spasmodic disease of the lungs, which manifests itself in periodic attacks or "fits." It comes on suddenly and is attended with great difficulty of breathing while it lasts, but when the attack is over the patient breaths almost as well as in health.

The Asthmatic fit may come on at any time, day or night, but most commonly occurs after midnight and before morning. The patient is suddenly awakened by a difficulty of breathing, a feeling of weight or constriction of the chest. It feels as though it were bound. He sits up in bed, pants or gasps for breath, and in bad cases, calls for the doors and windows to be thrown open. Perspiration stands out in large drops on the forehead, the face looks haggard, the lips are livid, the extremities cold, and the heart beating violently.

Persons badly afflicted with the disease are, during the fit, insensible to everything save the desire for air. I have known them to rush to the open window and hang over the sill for hours in mid-winter, utterly regardless of the cold. The feeling is precisely that of pending suffocation, and the poor sufferer endures for a time all the agony of drowning or slow strangulation.

But happily for the patient his confidence never deserts him. He feels that it will soon be over, and then he will get relief. After a longer or a shorter period, according to the severity of the case—generally a few hours—the tightness at the bottom of the chest relaxes, the breathing becomes deeper, the patient can speak and cough without difficulty, and begins to expectorate freely. At length, worn out by the intensity of his sufferings, he falls to sleep and the attack is at an end.

Nervous, Humid and Dry Asthma are names given to different forms of this disease. Emphysema is another and more inveterate kind of Asthma, while Hay Fever or Rose Cold is a peculiar variety of Asthma which occurs at a certain season of the year. Each of these forms of disease differs somewhat from the others in symptoms, but practically these distinctions are of very little value. It does not matter to the patient which form of Asthma he has since his sufferings are the same in all. In one case the expectoration becomes yellow, and we call it bronchial. In another it is light and we call it dry. When he coughs up clear water, with a white froth on the surface, we say he has Humoral Asthma. In Nervous Asthma there is very little expectoration of any kind. Hay Fever always begins as a crying cold in the head or influenza, and a clear water runs from the nose and the eyes before the Asthma fit comes on. In Emphysema the expectoration is generally thick, and continues so in the interval between the fits, while the shortness of breath is increased on the slightest exertion.

There is no rule which can be said to be uniform in Asthma. In one person the disease will entirely pass off after a single attack, and remain well for weeks. In another there will be several fits in succession, with only short intervals between them, and then the patient escapes for a longer period. In some fits occur regularly at stated times. Some athmatics breathe best in the city, while others cannot pass a night in town without suffering an attack. One prefers a low land as a place of residence, and another can only sleep on high ground. A particular exposure of a room will often make a difference, and I have known people who could sleep on one side of the street and not on the opposite. The smell of hay, roses, and even of the stable, with many is sufficient to bring on a paroxysm. Some cannot drive behind horses, or endure a cat in the same room.

All this must seem strange and almost absurd to those who know nothing of the disease by experience, but those who are afflicted with it understand the matter. So sensitive are some people that they cannot enter a drug store where ipecacuanha is kept without experiencing an oppression in breathing.

Asthma depends more on atmospheric causes than other lung diseases. The mucus membrane is morbidly sensitive to any change in the air, in the excess or deficiency of its zone—in the presence of smoke or dust; on the temperature, humidity, or even impregnance with the delicate fragrance of flowers and plants. Few people have any idea of the powerful influence exerted for good or ill by what we inhale. The air is the great source from whence we contract most diseases and it is only by employing it as the carrier of remedies that many of them can be cured. This is peculiarly the case with all diseases of the air passages and lungs, of none more so than asthma.

It is a foolish conceit of many people to believe that if they have Asthma they cannot get Consumption. The truth is the very opposite. They are more liable to fall into Consumption because they have Asthma. Another idea is, that Asthma itself is not a dangerous disease, and yet the published bills of mortality for this city prove to all who read them that great numbers lose their lives every year.

Without courage and perseverence nothing is curable. But with these, aided by proper and skilful treatment, Asthma can be cured even after the lungs are extensively diseased.

The asthmatic sufferer, therefore, should lose no time in having this terrible disease eradicated from the system before it is forever "too late."

Our Eastern friends should not depend upon climatic influences alone, for herein lies the fatal mistake. Nearly every case requires positive medical aid, so as to become rid of the offending matter—the consolidated portions of the lungs—so as to give nature an opportunity to heal them.

To Err is Human,

But it is positively inexcusable to administer or take narcotics or potent sedatives to relieve intranquility of the nerves, the easily discoverable cause of which is simply indigestion. Hostetter's Stomach Bitters is the remedy indicated when the nervous system is weak, and consequently super-sensitive and untranquil. Braced and quieted by this superlative tonic, the system obtains needful repose at night, dyspeptic qualms cease to disturb the stomach, and mental inquietude disappears. The habit of body becomes regular, the liver and kidneys are healthfully stimulated and bodily or mental exertion ceases to be a wearisome and difficult task. Nauralgia, rheumatism and malarial disorders, and kidney troubles, are entirely eradicated by this matchless invigorant and regulator.

The Conflict

Between disease and health is often brief and fatal. It is better to be provided with cheap and simple remedies for such common disorders as coughs, colds, etc., than to run the risk of contracting a fatal disease through neglect. DR. WM. HALL'S BALSAM is a sure and safe remedy for all diseases of the lungs and chest. If taken in season it is certain to cure, and may save you from that terrible disease, Consumption. It has been known and used for many years, and it is no exaggeration to say that it is the best remedy in the world for Coughs, etc.

A popular clergyman of the Quaker City recently electrined a dinner party in that staid town by remarking that "God first made the cherubim, then the seraphim, and then the terrapin."

An Enterprising, Reliable House

C. F. Having secured the Agency for the celebrated Dr. King's New Discovery for Consumption, will sell it on a positive guarantee. It will surely cure any and every affection of Throat, Lungs and Chest, and to show our confidence, we invite you to call and get a Trial Bottle Free.

The Court House Bonds.

There was a remarkable and gratifying vote cast on Tuesday for the issue of $200,000 of Court House bonds. All parts of the county came up to the work nobly and cast 7001 votes for the bonds, while but 1364 votes were cast against the issue. The county will now have a fine Court House.

Remember It is Baker Block.

It is necessary to remind the public that the Southern California Land Company is the only corporation of that name and that its location is Baker Block. It sells the Howes Tract.

Passengers Coming.

The steamer Orizaba sailed from San Francisco yesterday with the following passengers for Los Angeles: J L Roberts, Mrs Roberts, S C Thompson, Miss Dorsey, C H Howland, P W Burdett, Mrs Miller, J C Canterbury, Miss Case, Mrs A Grogan, Miss H R Strong, Miss Harris, L Landers, A Jones, Helen J Ramsey, S D Bell, Charles F Sloan, L A Pelton, F Dorsey and son, Thomas J Gray, Mrs Sanders and son, Miss A Burke, J L Raible.

You Will Be Disappointed.

The rapid sale of the Howes tract will again cause many disappointments. Every day is decreasing the remaining number of lots.

No Cheap Houses.

The nine houses in the Howes tract are valued at eleven thousand three hundred dollars.

In Eclipse.

The $500, $600, $700 lots are in eclipse. Every one contrasts them with the Howes lots at $190, and of course the high-priced propositions of indiscreet semi-dealers come to grief.

On Temple Street.

There was a crowd at the door of the Southern California Land Co. (Baker Block) all all day yesterday admiring a view of a handsome mansion on Temple street, which Mr. Pierce, the draughtsman of that Company, had sketched equal to a photograph; go and see it.

THE CITY BONDS.

What is to be Done With the $245,000.

OFFICIAL RECOMMENDATION.

Letter From W. T. Lambie—Republication of Reports of Committees.

LOS ANGELES, November 6, 1886.

EDITOR LOS ANGELES HERALD:—I have been requested by a number of citizens of the First Ward to state what I know regarding the issuance of the $245,000 in bonds, for Los Angeles improvements. Having been a member of the Council from the First Ward at that time, and active in securing the indorsement of the people on that important proposition; and it appearing that the Council is disposed to ignore the real objects for which the bonds were voted, it seems to be my duty to bring this matter before the people.

In your issue of June 25, 1885, you published the reports of the following named committees, viz: "Water Supply," "Sewer" and "Finance." Upon these reports the Council based the distribution of the $245,000, for which they proposed to ask the city to allow them to issue bonds.

In the report of the Committee on "Water Supply" will be found the estimates of the Board of Engineers for certain improvements on our irrigation system, taken from their report, which was adopted by the Council of the previous year, and which was looked upon as the settled plan for the future. In connection with this estimate (on last column) will be found the amounts which were to be expended out of this issue of bonds.

The distribution was changed at the Council meeting following your issue of June 25, 1885, and the City Hall Fund increased to $65,000. For this purpose $5000 was taken from each of the following proposed improvements, viz: "Main Street Sewer," "Bridges, Street Improvements, etc.," and "Main Supply Ditch."

I think the reports of the committee referred to fully explain the matter, and you you will do me a favor to re-publish them in connection with this letter

Yours truly, W. T. LAMBIE.

Following are the reports mentioned in the letter of Mr. Lambie:

To the Honorable Committee on Finance of the Council of the City of Los Angeles:

Your Committee on Water Supply beg leave to respectfully submit:

1. In answer to your inquiry relative to the amount required to so complete the present irrigation system of Los Angeles as to do away with the annual repairs of its open ditches, a statement that the amount required in accordance with the estimate made in the report of the Board of Engineers and adopted by the Honorable Council of the city of Los Angeles has been reduced, as appears in the following table, showing the length in feet and estimated cost of piping of the present system, as recommended by the Board of Engineers, and proposed present expenditure.

	Lngth in feet	Estimat'd cost	Propsd outlay
Main supply	$27,289	$ 81,867 00	$ 25,000
Canal & reservoir	11,149	13,936 25	....

Zanja Upper 7	....		
Zanja 7	....		
Totals	216,882	$288,505 75	$125,000

In this estimate it is proposed to enlarge the main supply ditch from its present capacity of 12 cubic feet of water to a capacity that will enable it to discharge 26 cubic feet per second, the quantity of summer supply at the head of said ditch. By making said ditch 15 feet wide at bottom, with proper lateral slopes, and giving it an additional depth, this result can be obtained at an estimated cost of about 90 cents per linear foot. The estimate of the Board of Engineers contemplated the additional construction of a brick or cement conduit four feet in diameter, which, under the circumstances, can be at present dispensed with. The estimate for zanja 9-E is to connect the iron pipe, crossing the Los Angeles river with the one crossing the "Arroyo Seco." The estimate zanja 8-R will connect the present enclosed ditch at Seventh street and the one at Adams street and will enclose the west branch of 8-R until it crosses Figueroa street. Zanja 1 can be completed to and across Seventh street to a junction to the present pipe passing through property of J. Kiefer. Zanja 2 can be completed a short distance below Kohler street; zanja 2 to Vejar street; zanja 4 to Twelfth street, and zanja 5 to Washington street with a pipe 30 inches in diameter, or to Adams street with a pipe 22 inches diameter.

By an expenditure as above the central service will be completed through those portions of the city where irrigation is no longer needed, the New Water Fund can be made self-sustaining from the sale of water, and the annual tax levy can be reduced to the amount heretofore annually appropriated to said fund.

Your committee would additionally respectfully call the attention of the Honorable Council to the importance of providing for the purchase of reservoir sites 2 and 3. This can be done by disposing of the lands in the northerly portion of the city, known as the Stone Quarry Hills, at public auction and using the amount received therefrom in the purchase of said sites. It might be urged that a portion of this $125,000 asked for in this report should be so appropriated; but the construction of these reservoirs must be a future consideration and the reason for a present purchase thereof is that the enhancement of values in real estate makes delay costly, whilst it is an immediate necessity in most instances that large and extensive repairs should be at once made to the present open ditches.

Respectfully submitted,
[Signed] WM. T. LAMBIE,
J. F. HOLBROOK,
E. M. HAMILTON,
D. M. MCGARRY,
Committee on Water Supply.

THE COMMITTEE ON SEWERS.

To the Honorable Committee on Finance of the Honorable Council of the City of Los Angeles:

Your Committee on Sewers beg leave respectfully to submit:

1. In answer to your inquiry relative to the amount required to afford additional sewer facilities in Los Angeles, and the proper locality wherein to construct additional works, a statement that the main branch sewer most needed at present is the one to be constructed on Main street from Ogier Lane to the south boundary of the city with its branches. The sewer fluid conducted through this sewer, when constructed, can be disposed of by being used on the lands, lying south of the city, for irrigation, as in the case of the San Pedro street branch sewer. The construction of this sewer and its branches will afford sewer facilities directly to all that portion of the city lying south of Seventh street, west of Main street and east of Pearl street, and extending to the south boundary of the city, and indirectly to that portion of the city known as "Sonora," and the locality on the west bank of the river near the "New Railway Depot," by connecting the Hill and Seventh street sewer and the Spring street sewer with said new branch sewer, and disconnecting them from the San Pedro street branch sewer. For details of the alignment your Committee refer to the map of said Main street branch sewer and its branches, in the office of the City Surveyor.

The length of this sewer is, in round numbers, as follows:

Main street branch sewer, 14,600 linear feet, estimated to cost, by the City Surveyor, $36,000; lateral branches to same, 42,500 linear feet, estimated to cost, $34,000, making a total cost of $70,000.

This length of sewer would make (excluding cross streets) a frontage of 100,000 feet, which at 60 cents per front foot, now charged by the city for the privilege of connection when no sewer assessment has been paid, would bring into the General Sewer Fund $60,000, leaving a deficit of $10,000 in the above estimate. These payments cannot be enforced by assessment in the present undetermined condition of the law under which the city operates, but are paid voluntarily by residents on the line of sewers for the privilege of connection after said sewers have been constructed. It is estimated by your committee that during the progress of construction of this sewer and its branches, between 40,000 and 45,000 front feet will pay for said privilege. This number of front feet will bring into the General Sewer Fund between $24,000 and $27,000, so that with an appropriation of say $45,000 to the General Sewer Fund this work can be constructed. The charter limits the tax levy for sewer purposes to $0.15 on the $100 valuation. This amount, or even the amount estimated to be required for the construction of the Main street sewer alone, cannot be levied by direct tax. To construct said sewer, therefore, it will be necessary to obtain the sanction of the citizens of Los Angeles to the issuance of bonds for the amount of $45,000

Respectfully submitted,
(Signed) WM. T. LAMBIE,
H. SINSABAUGH,
Committee on Sewers.

FINANCE COMMITTEE.

To the Honorable Council of the City of Los Angeles:

Your Committee on Finance beg leave respectfully to submit:

1. A statement that for some time past your committee has had under consideration the tax levy for the present fiscal year with a view to reducing the same to a rate of $1 on the $100 valuation, plus the amount required for the interest and sinking fund with which to meet the present bonded indebtedness.

It has been generally the custom heretofore to obtain the amounts necessary for expenditures in making permanent improvements which have been required from time to time (such as bridges, public buildings, improvements in the water system, etc., etc.,) from a direct tax, included in the tax levy for the fiscal year in which the improvements were commenced.

In the opinion of your committee this method is wrong in the abstract, as, in most instances, it has necessitated the construction of works in detached sections, subject to the diversified opinions of Councils annually changing its members, when, in the interest of economy and comparative perfection, such improvements should have been constructed at once to a final completion; and, again, it does not appear to be correct in principle that the present should pay for the necessities and requirements of the future. The growth of the city has been so abnormally rapid in the past two years, however, and its necessities for the proper service of the public in the various departments of the city government have so multiplied and increased that it is no longer practicable to carry out the rule established by ancient usage. That this latter assertion is correct your committee refers to the reports of the Committee on Water Supply and Committee on Sewers, herewith presented and made a part of this report, and to the estimate of the Board of Public Works. By these reports it will be seen that there is needed the following amounts:

Committee on Water Supply	$125,000
Committee on Sewers	45,000
City Hall	50,000
Making a total of	$ 20,000

To which should be added at least $25,000 for street improvements, bridges, etc., in order that the avenues leading into the city should so be improved as to accommodate the convenience and necessities of the traveling public.

2. An estimate that there will be required for the fixed expenses of the city for the fiscal year the following amounts on each $100 of valuation. This estimate is based upon a total assessed valuation of $15,000,000:

Interest and Sinking Fund, including interest on new bond	$0 20	$30,000
Fire Department	0.13	19,500
Gas	0.12	18,000
Street Sprinkling	0 07	10,500
School	0.10	15,000
Library	0.02	3,000
New Water Fund	0.02	3,000
General Sewer Fund	0.02	3,000
River Improvement Fund	0 06	9,000
Cash Fund	0.17	25,500
	$0.91	

Making a total of $0.91 on the $100 valuation without making any provision for current expenses outside of the items given above.

3. Report of the Committee on Water Supply, showing the manner in which it would be proper to expend $125,000 required for the proper management and improvement of the irrigation system.

4. Report of Committee on Sewers, detailing the proposed construction of the Main street branch sewer with its branches, and an estimate of cost therefor.

5. Report of City Attorney relative to the ability of the city to issue bonds.

6. A recommendation that a special election be held on ——————, for the purpose of submitting to a vote of the citizens of Los Angeles whether the city of Los Angeles shall be authorized to issue bonds in the amount of $245,000, to be expended as follows:

Irrigation system	$125,000
Sewers	45,000
City hall	50,000
Bridges, street improvements, etc	25,000
Total	$245,000

And that the City Attorney be instructed to prepare an ordinance providing for the issuance of bonds and a resolution providing for said special election.

7. A recommendation that your honorable body state to the voters of the city of Los Angeles that, should it be their pleasure that bonds should be issued, the tax-levy for the present fiscal year should not exceed $1.20 on each $100 valuation.

[Signed] WM. T. LAMBIE,
JAMES VELSIR,
D. M. MCGARRY,
Committee on Finance.

On motion of Mr. Hamilton, the City Attorney was instructed to prepare an ordinance ordering a special election on the question of issuing bonds.

A resolution was then presented and unanimously carried that the Council adjourn to meet on next Tuesday, June 30th, in the new city hall.

REAL ESTATE.

A Splendid Piece of Property Placed on the Market.

The Southern California Land Company Again to the Fore.

The Howes Tract on Jefferson street, including the handsome home residence and charming grounds of F. C. Howes, Esq., Cashier of the Los Angeles National Bank, to be subdivided—375 large lots (one-fifth of an acre each) with nine beautiful villa residences, including the large cottage of ten rooms of Mr. Howes; graded streets, etc., to be sold on the Homestead plan at $190 per lot, in payments of $10 monthly without interest; with first payment of $30.

The great success of the Southern California Land Company, (Baker Block), with the CHILDS TRACT, URMSTON TRACT, CITY CENTER TRACT, WILLIAMSON TRACT, ELEVENTH STREET BLOCK and COLUMBIA COLONY has been owing to the wonderfully low rates at which this popular company has placed first-class, well located property before the public.

It is refreshing to note in the midst of the boom in real estate, that one reliable firm not only gives to the people homestead lots at about one-third the price charged by others, but also performs all its promises to the letter in the building of houses, opening out of streets, putting up electric lights and extending the improvements of our city to its farthest legitimate bounds.

The maps of the Howes Tract are now ready and all will be bustle and activity on this beautiful property; surveyors will be laying off the streets and avenues, builders will be placing houses and pushing forward at once all the improvements promised, and the Tract, now almost all covered with vines, orange trees and splendid foliage, will put on a metropolitan look and keep up with its beautiful surroundings of costly buildings and cottage residences.

The Howes Tract fronts on Jefferson street, west of Vermont avenue. The location is a very popular one, in the direct line of the city's rapid growth, and will soon be reached by lines of street railroad and the Motor Road on the west.

A great demand has sprung up and names are coming in rapidly. The large salesroom of the SOUTHERN CALIFORNIA LAND COMPANY, 244 North Main street (Baker Block), is filled every evening with subscribers until a late hour.

$190 per lot is not one-third the price of outlying lots in Pasadena or the rocky cañons around it, and not one-fourth the rate of the farthest subdivisions of unmarketable tracts in East Los Angeles. oct17

DOES IT PAY

The Public to Read the Advertisements of the

PEOPLE'S STORE?

In business, as in other matters, chances occur daily of obtaining advantages that are meritorious. Men fail in business seek to realize all they can prior to their downfall—sell their goods for cash at any price they can get. Others die, the business goes into liquidation. Still others are thrust out of business for fraud, deceit or misrepresentation; their stocks taken from them and given to some responsible merchant, etc., etc. In a number of ways goods come into the hands of merchants who have the cash to bid for them. How is the merchant who takes advantage of his opportunities to let his customers know the splendid values fortune has given him to give his patrons? Through his advertisement in the newspaper. And that, though the best of all known methods, is not entirely satisfactory. A limited number of people, who have learned the worth of reading legitimate advertisements, come and take advantage of its offers; the rest learn of it a day, a week, or a month later, when they see the new garment being worn. "Why! isn't that elegant! Where did you get that?" "At the People's Store, of course! They advertised them last Friday." "Just think! Isn't that cheap? Why I didn't see it!"

Of course not. You don't read the papers and don't know the amount of money you lose a year by not buying when goods are advertised cheap.

Our Clothing Department Claims Your Attention To-day.

We sell you a good, serviceable Boys' School Suit for $2.25.

A very nice suit for $3.95. Now, where in town can you buy any kind of a boys' suit for that money. Clothing stores would all go to ruin on profits like ours.

At $5.95 we sell you a Corded Pique Suit, as fine as any boy wants to put on his back. These goods were made for Coleman Bros., of Montgomery street, San Francisco, who had the finest trade on the Coast, and sold these goods from $10 to $15.

We have suits at intermediate prices—$3.25, $3.75, $4.25 and $4.50.

Boys' Knee Pants, serviceable and plenty good enough for "little shavers" to knock around in, 65c., 75c., 98c., $1.25.

Youths' Suits, up to 18 years, $4.50, $6.50, $7.50, $8.50. Our goods are the equal of any—the only difference is we buy them and sell them from two to five dollars a suit cheaper than regular clothing stores.

Annexed to the Clothing Department is our Shawl and Jersey Department. Our values in both are simply splendid. We have for the first time bought these goods from the mill direct, and it is a saving of forty per cent. on former prices. Think of it.

Extra large shawls, large per cent. wool, $1. Silk-mixed shawls, nice goods, $2.25. Oriental silk-mixed shawls $3.50—sold previously at $6.

Full size, extra heavy Blanket Shawl $2.75.

Shoulder Shawls 15c. and upwards.

Black, all wool, pull-back Jerseys $1.

Black, all wool Jerseys, white trimming, $1.

Tailor-back, all wool black Jerseys, wide braid trimming, $2.

Fine imported Cashmere Jerseys $2.50.

After you look at these goods, you will conclude that it does pay to read the advertisements of,
